1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on August 31, 2005 has been entered.

2. Applicant is reminded that, according to 37 C.F.R. 1.178, applicant must keep the current litigation status up to date and call to the attention of the PTO the results of such litigation.

3. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action. The assignee consent in the parent reissue is insufficient to satisfy this requirement. See MPEP 1410.01.

4. The reissue oath/declaration filed with this application is defective because it fails to identify at least one error which is relied upon to support the reissue application. See 37 CFR 1.175(a)(1) and MPEP § 1414. Applicant's statement of the error in the claims regarding a hopper being too narrow is insufficient since there are no claims directed to a hopper per se and since it is not seen how the current claims overcome the alleged narrowness of the original hopper limitations. Thus, applicant's statement of error does not accurately reflect any error that is actually being corrected by the instant reissue

application. It is also pointed out that the general nature in which the error is described is insufficient. MPEP 1414 states in part that any error in the claims must be identified by reference to the claim(s) and the specific claim language wherein the error lies.

5. Claims 1-3, 5-13 and 15-57 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.
